Our ability to meet expectations with respect to payment of dividends, if any, will depend from period to period on our business and financial condition, our available cash, accounting or other charges and other factors relating to our business and financial condition and needs at the time.

Discrepancies may also result from such factors as the ability to enter new markets or develop new products, trading desks, marketplaces or services and to induce customers to use these products, trading desks, marketplaces or services, to secure and maintain market share, to enter into marketing and strategic alliances, and other transactions, including acquisitions, dispositions, reorganizations, partnering opportunities, and joint ventures, and the integration of any completed transactions, to hire new personnel, to expand the use of technology and to effectively manage any growth that may be achieved. Results are also subject to risks relating to the separation of the BGC businesses and merger and the relationship between the various entities, financial reporting, accounting and internal control factors, including identification of any material weaknesses in our internal controls, our ability to prepare historical and pro forma financial statements and reports in a timely manner, and other factors, including those that are discussed under Risk Factors in eSpeed's Annual Report on

Form 10-K for the year ended December 31, 2007, which was filed with the SEC on March 17, 2008; in eSpeed's definitive proxy statement, which was filed with the SEC on February 11, 2008; and in the Combined Company's Registration Statement on Form S-1, which was filed with the SEC on April 18, 2008, and as amended thereafter.
