Results may also be affected by the extensive regulation of our businesses, changes in regulations relating to the financial services industry, and risks relating to compliance matters, as well as factors related to specific transactions or series of transactions, including credit, performance and unmatched principal risk as well as counterparty failure. Factors may also include the costs and expenses of developing, maintaining and protecting intellectual property, including judgments or settlements paid or received in connection with intellectual property or employment or other litigation and their related costs, and certain financial risks, including the possibility of future losses and negative cash flow from operations, potential liquidity and other risks relating to the ability to obtain financing and risks of the resulting leverage, as well as interest and currency rate fluctuations. Our ability to meet expectations with respect to payment of dividends, if any, will depend from period to period on our business and financial condition, our available cash, accounting or other charges and other factors relating to our business and financial condition and needs at the time.

Discrepancies may also result from such factors as the ability to enter new markets or develop new products, trading desks, marketplaces or services and to induce customers to use these products, trading desks, marketplaces or services, to secure and maintain market share, to enter into marketing and strategic alliances, and other transactions, including acquisitions, dispositions, reorganizations, partnering opportunities, and joint ventures, and the integration of any completed transactions, to hire new personnel, to expand the use of technology and to effectively manage any growth that may be achieved. Results are also subject to risks relating to the separation of the BGC businesses and merger and the relationship between the various entities, financial reporting, accounting and internal control factors, including identification of any material weaknesses in our internal controls, our ability to prepare historical and pro forma financial statements and reports in a timely manner, the effectiveness of risk management policies and procedures, and other factors, including those that are discussed under "Risk Factors" in eSpeed Inc.'s Annual Report on Form 10-K for the year ended December 31, 2007, which was filed with the SEC on March 17, 2008; in eSpeed's definitive proxy statement, which was filed with the SEC on February 11, 2008; in BGC Partners' final prospectus, which was filed with the SEC on June 6, 2008, and as amended from time to time in our quarterly reports on Form 10-Q or our Annual Report on Form 10-K.
